

Thaddeus Seymour, Jr.
Vice President and General Manager
Health and Life Sciences

As a veteran healthcare executive and entrepreneur, Thad Seymour has extensive experience in the healthcare and software industries. As Vice President and General Manager of Health and Life Science Investments, Thad manages strategic planning and business development projects related to Lake Nona's growing Science & Technology Park.

Integral to the Lake Nona master development, the 600-acre Science & Technology Park will be the epicenter of its healthcare and life sciences investments and developments. Burnham Institute for Medical Research and the University of Central Florida College of Medicine and Health Sciences Campus are both under construction and scheduled to open facilities in 2009. The Science & Technology Park will also be home to a new Veterans Affairs Medical Center, Nemours Children's Hospital and pediatric campus, and M.D. Anderson Orlando Cancer Research Center.
